

Remarks

This is in response to the Restriction Requirement for the above referenced application mailed November 18, 2003.

Applicants elect Group II (claims 8-10) without traverse and reserve the right to continue prosecution of the remaining claims in divisional applications. Applicants have also added claims 17-21. Support for the claims can be found throughout the specification. In particular:

Amended claim 9 finds support in the specification at page 5, line 17.

Claim 17 finds support in claim 1 and claim 7.

Claim 18 finds support in claim 9.

Claim 19 finds support in claim 10.

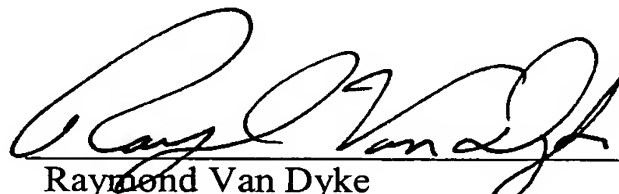

Claims 20 and 21 find support in the specification at page 3, line 1 and page 17, line 12 where it identifies the published rat sequence as GenBank accession number U42975. Applicant's respectfully submit that SEQ ID NOs 2 and 4 are 96% and 99% homologous, respectively, to the rat sequence.

Based on the foregoing, Applicants believe that the instant application is now in condition for allowance and request that it be passed to issuance.

Respectfully submitted,

March 8, 2004
